We are part of your room.

# Choose the easy way!

Switch from printed price tags or price tags with battery to a maintenance free and battery-free esl solution for a digital and sustainable future. The all in one solution for a smart product presentation without compromise.

## smart

- Price and content change at the push of the button
- Installation, compatible with all of our electrified shelf systems
- Easy construction

## simplicity

- Quick updates for special events or inventory price changes
- Multichannel marketing full color touch screen and interactive content
- Multiple languages, and changing to your language and currency with ease

## economical

- Centralized operation, especially across all your stores, regional and global
- Real-time traceability for locating service personnel and objects
- API Integration, automated updates and data synchronization
- Customer Feedback and Analytics

## sustainable

- Maintenance free and energy efficient
- No batteries needed
- Energy-saving LED lighting
- esl electrification and shelf lighting from one system
- Cloud solution in Germany
